

Healthcare software & solutions  
designed to be:

**Provider Optimized.**  
**&**  
**Patient Centric.**

Instant access to our network of clinical and specialty testing laboratories, including home self-collect test kits.

Skip contracting and test cost negotiations, and access LabSavvy direct client pricing. Save 30% or more on testing costs compared to direct contracting.

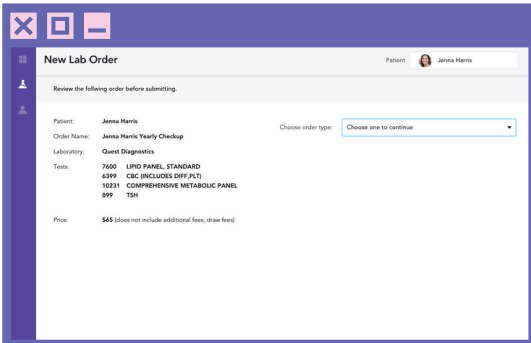

Web & mobile app based patient portal that includes patient education for over 500 laboratory tests.

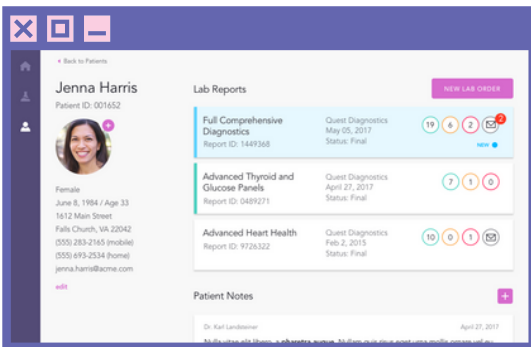

Over 3,000 service center locations. Ensure your patients have easy and convenient access for blood draws.

## Features & Functionality

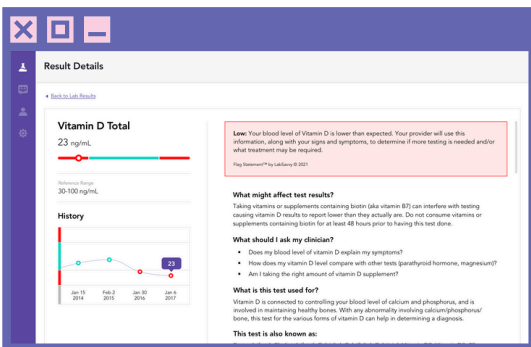

### Place Orders with Ease

Simple 3-step ordering process for patient labs. The ability to create custom test menus and order sets, making it easier to order your most common test combinations.

### Easy to Use Visual Workflows

Easy-to-use provider inbox that allows order and test status at-a-glance, as well as color coding for quick result triage. Result tracking and trending provides a single view of patient results over time for a clear clinical picture

### Patient Engagement & Education

LabSavvy provides expert created & curated dynamic result based education for over 500 laboratory tests. Designed to engage and empower patients to take an active role in their health.
